DETAILED ACTION

Applicants' response of 8/16/2005 has been considered and entered. The Applicants' arguments have been considered, but they are not persuasive for the reasons as discussed below. Claims 1-9 and 14-23 are under consideration.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-9 and 14-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Klersy et al (US 6,815,705) for the reasons as discussed in the previous Office action.

Response to Applicants' Arguments

Applicants argue that Klersy et al does not disclose a tungsten second layer as required by the amended Claims. The Examiner maintains that Klersy et al discloses that the conductive layer **134** can be made out of tungsten. See column 9, lines 45-55. Therefore, the rejection of record is maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
